For the period between March 1 and June 21, Metro Housing has seen significant increased demand for both RAFT (Residential Assistance for Families in Transition and through the Housing Consumer Education Center’s Resource Line).

Specifically, Metro Housing has seen a three-fold increase in the number of RAFT pre-applications compared to the period before the COVID virus, and requests for help through the Resource Line have increased four-fold. These numbers reflect only the demand in Metro Housing’s region for these specific dates.
